SUMMARY

Solutions Engineer focused on customer-facing SaaS platforms, APIs, and production systems. Experienced designing integrations, troubleshooting complex technical issues, and guiding customers through successful implementations. Known for translating technical complexity into clear solutions while partnering cross-functionally with product, engineering, and customer teams. Hands-on experience building and operating live platforms using React, Firebase, Stripe, and Cloud Functions.

SKILLS

Solutions Engineering • Customer-Facing Engineering • API Integrations • SaaS Platforms • Technical Troubleshooting • Technical Discovery

React • JavaScript • Firebase • Cloud Functions • Google Cloud • REST APIs • Stripe • System Architecture • Technical Documentation • Implementation Support

EXPERIENCE

Ober Artisan Drums, Nashville, TN — *Solutions Engineer / Platform Engineer*

2024 – Present

- Architect and operate a production SaaS-style e-commerce and operations platform supporting live customer transactions, internal tooling, and end-to-end custom drum build workflows.
- Build and deploy full-stack production systems using React, Firebase, Cloud Functions, and Stripe supporting authentication, payments, and internal tooling.
- Develop internal operations tools that manage orders, documentation, communication, and manufacturing workflows.
- Diagnose production issues across application logic, integrations, authentication, and data layers while translating customer feedback into shipped product improvements.

JLL Technologies, Remote — *API Solutions Engineer*

2021 – 2024

- Supported enterprise customers implementing API-driven SaaS integrations across pre-sales and post-sales environments.
- Partnered with engineering, product, sales engineering, and customer success to deliver scalable integration solutions.
- Led technical discovery sessions to understand customer architecture and integration strategy.
- Investigated and resolved high-impact production issues involving authentication, data reliability, and system edge cases.
- Authored technical documentation and enablement resources used across internal teams.

JumpCrew, Nashville, TN — *Client Success Manager*

2020

- Managed client relationships and campaign performance for digital marketing accounts, serving as primary point of contact and trusted advisor.
- Analyzed campaign KPIs and collaborated cross-functionally with sales, marketing, and operations to improve client outcomes.

CarGurus, Cambridge, MA — *Customer Success Leadership Roles*

2015 – 2019

- Led a 20+ member support organization during rapid company growth while maintaining 90%+ CSAT.
- Built support processes, KPIs, and knowledge base infrastructure from scratch.
- Developed onboarding and training programs that improved resolution speed and team effectiveness.
- Managed 250+ dealership accounts earlier in tenure while analyzing performance data to identify optimization opportunities.

Mercer, Norwood, MA — *Participant Services & Retirement Support Roles*

2012 – 2015

- Managed complex retirement initiation and survivor benefit cases while serving as primary contact for employees, survivors, HR teams, and administrators.
- Resolved participant benefit inquiries requiring detailed research and coordination across internal teams.

SELECTED PROJECTS & SYSTEMS

Ober Artisan Drums Platform — Full-stack e-commerce and operations platform built with React, Firebase, Cloud Functions, and Stripe supporting live customer transactions and manufacturing workflows.

MotionSynth — Interactive polyrhythmic music synthesizer combining audio systems, UI engineering, and creative tooling.

WeatherNest — UX-focused weather platform translating forecast data into actionable preparation guidance.

EDUCATION

General Assembly, Nashville, TN — *Software Engineering Immersive Certificate*

Berklee College of Music, Boston, MA — *Film Scoring & Composition (Coursework Toward Bachelor's Degree)*

Dean College, Franklin, MA — *Associate of Arts, Liberal Arts & Sciences*

AWARDS

CarGurus President's Club Award, 2017
